

Press Release

Comacocoon

Your next vacation is limited only by your imagination...

Dear Friend,

You are among a select group of individuals and professionals who are being asked to take a few minutes to review the attached materials and answer some questions about your vacation patterns and needs. Your answers will help us serve you better.

Whether you're a high-pressured professional in need of a rest, a daredevil adventurer in search of a thrill, or a conscientious environmentalist in need of a pollution-free travel experience, **Comacocoon** has a vacation package for you. No longer do you have to be an unwelcome tourist subject to the fears and troubles of travel. Never again do you have to be stuck in an overpriced destination resort while the weather outside is dreadful, or strain yourself at a health spa attempting to lose weight.

After years of medical and scientific development, what was once solely a concept of visionaries and science fiction writers, is now a reality and will change the nature of the travel and leisure industry forever. **Comacocoon** is proud to present the revolutionary, totally safe technological breakthrough that enables the mind to be the ultimate vehicle to take you where you want to go. **Comacocoon** offers the world's first comprehensive dream vacation package, which, utilizing our pioneering BioImpression(tm) computer system, gives you a state of total suspended animation and intensive, concentrated regeneration through anesthesiology and subliminal programming. We guarantee complete relaxation while your imagination is guided to the destinations of your choice as you quit smoking, lose weight, learn to speak a foreign language and go home with a tan. We want you to take your next vacation with us. We'll relax your body, direct your mind and let your spirit soar.

Our internationally renowned medical staff will ensure a safe, productive vacation that creatively blends fulfillment of your fantasies with exercise, diet, education and self-help programming, all tailored to meet your own personal goals. Optional care packages are available for additional self-improvement such as cosmetic surgery, dental extraction, liposuction, hair plugs, and psychotherapeutic behavioral transformation.

Comacocoon will open its first facility on the Upper West Side of Manhattan in time for the 1990 Christmas holiday season. We expect to be opening additional facilities in major metropolitan cities throughout the world in the near future. We will be offering personalized package tours with individual and group rates. Please see attached brochure for details.

Be an astronaut, be a viking, be a child again. Come stay with us.
